

Mansfield: doing a *superior* job!

BY KEVIN MORAN, OPERATIONS MANAGER

The American Institute of Baking (AIB), founded in 1919, has a mission to protect the safety of the food supply chain through rigorous inspections, audits, and training.

In September, our Mansfield facility was audited. The processes, procedures, and physical facilities were meticulously reviewed. We are proud to say that Mansfield received the *superior rating*—the highest rating possible—on the first-ever audit.

The audit was performed by Charles Obert of the AIB, along with Director of Operations Bob Willert and Mansfield Operations Manager Kevin Moran.

This rating is a reflection of the effort and dedication of the entire staff in Mansfield, who have embraced Barrett's corporate sanitation standards to achieve the same high score as our other food-grade facilities. We take pride in continuing to provide outstanding food and sanitation control for our clients. 🇺🇸
